5. YUSUF WAFIY BIN MOHD NIZAM (22006958)
6. IZAM BIN MOHD ARIFF (22007541)
7. IRFAN DANIAL BIN AHMADI (22007337)

Project info

We see many student have problems with finding academic info such as class times, courses, pointer and much more.

This project is made for students to review their academic related info online with ease. The program has a bunch of class such as a student class, lecturer, semester, result, course, session, schedule and more. Also it has a database that stores the necessary info about the user.

Task distribution

We have distribute the task to certain part which is below with their contributor

Database- Ammar

javaFX- Yusof, izam

Main- Azam, Saifullah

Subject- damien

Utility-irfan
